Where the required method is not listed in the Pricelist, the amount of reimbursement of costs shall be defined on the basis of the formula provided in part C of the Pricelist. If consumer materials are necessary for the conduct of specific laboratory tests which are not normally available in the Institute, the price of the consumer materials shall be added to the amount of costs to be paid by the applicant. The amount of costs shall be, furthermore, incremented by laboratory analyses outsourced by the Institute in contract laboratories. In these cases the customer shall be informed prior to the conduct of the test and his/her approval shall be sought.
